

Risk Readiness Quick Guide

EMPLOYEE HEALTH & SAFETY ALIGNMENT

Key Message

Organizations that align employee health, wellness and safety efforts can improve workforce wellbeing, reduce injuries and create greater operational efficiency.

Key Takeaways

- Employee health influences workplace safety outcomes.
- Healthy employees may experience fewer injuries and improved recovery outcomes.
- Safety and employee benefits strategies should support common organizational goals.
- Integrated approaches can create efficiencies across the organization.

ACTION ITEMS

- Evaluate opportunities to align health and safety objectives.
- Review wellness initiatives through a risk management lens.
- Identify leading causes of fatigue and musculoskeletal concerns.
- Encourage collaboration between HR, Benefits and Risk Management teams.
- Develop metrics to measure workforce health and safety outcomes.
